**We invite to FCI OLR Mazury
to Poland**

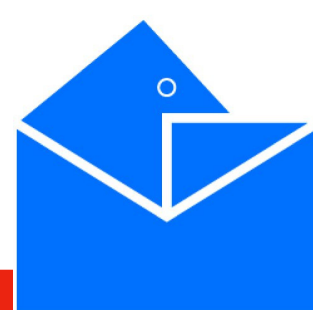

We are very pleased to introduce our initiative of competing within young postal pigeons.

Created in 2018 One-Loft Racing is a project of colleagues Wojciech Ziobroniewicz and Sylwester Zieliński. It is located in Popowo, near to Grajewo. The planned capacity is about 2000 young pigeons.

We're counting on your interest. WMG Mazury is unique in the eastern part of the country. In the immediate vicinity there is a banquet hall providing accommodation and catering for interested breeders and guests of our One-Loft Racing. We invite you to familiarize with the regulations and the reward system on our website.

Everything about our loft from A to Z

ORGANIZERS

The main initiator and organizer of the whole initiative is **Wojciech Ziobroniewicz**.

A longtime breeder of polish pigeon club 014 Stawiski residing in Grajewo, winner of many results at various levels in the national competition of racing pigeons.

The second organizer of the International One Loft Race Mazury is **Sylwester Zieliński**.

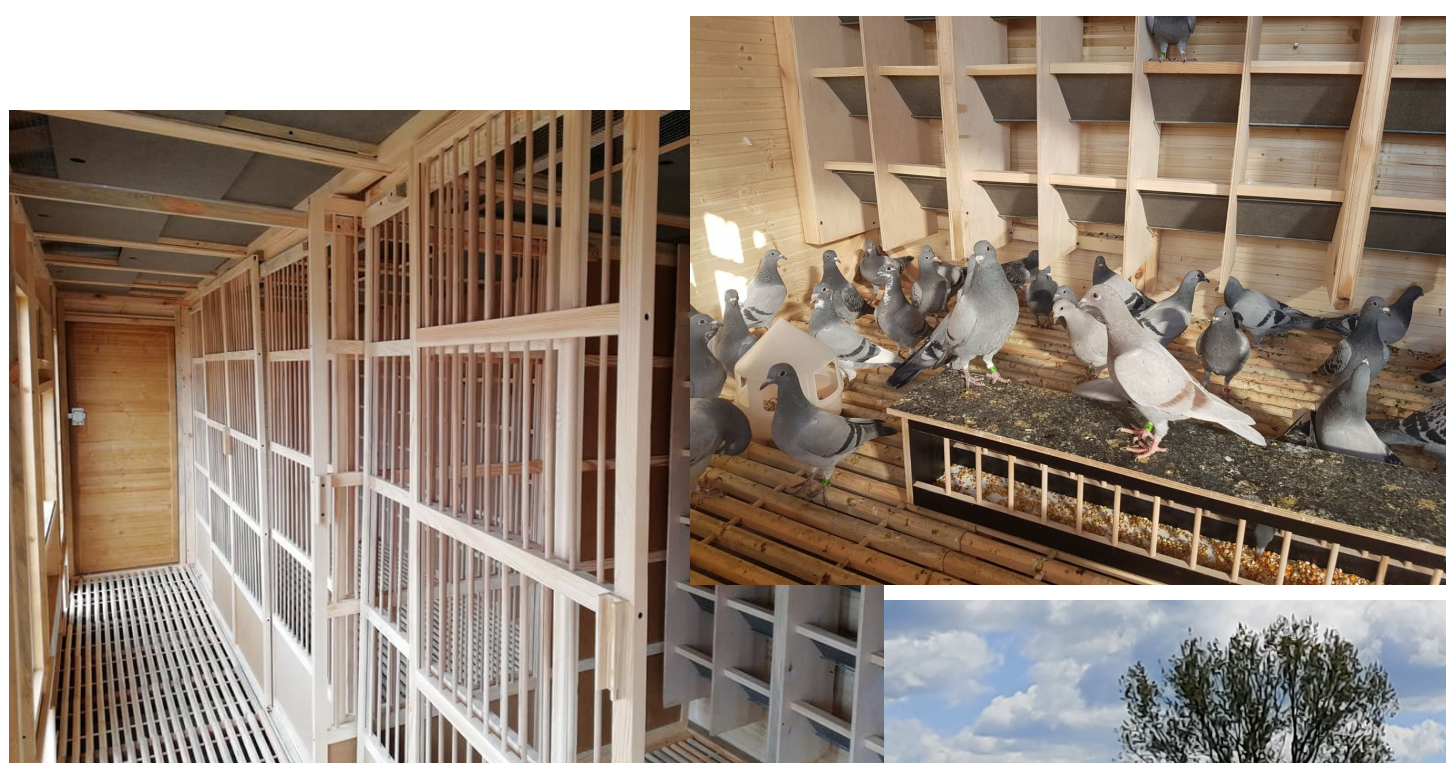

Sylwester comes from north-eastern Poland. Currently, for many years he has been living in Belgium (the cradle of the world pigeon sport) in Perk, where he competes in the Belgian association.

In 2018, colleagues Wojciech and Sylwester decided to try their hand at organizing and running a joint loft. The first such project in north-eastern Poland.

LOCATION AND CONSTRUCTION OF LOFTS

Our loft is located in Popowo near Grajewo. In a beautifully situated village, we can easily reach it via the new S8 and DK61 communication artery. After arriving in Warsaw - the nearest airport, foreign guests can easily reach OLR Mazury after a 3-hour journey. The close vicinity of lakes and forests further enhances the tourist experience. In the vicinity of our OLR there is a banquet hall with gastronomy and accommodation that can be used by our participants.

We started the construction of lofts in early spring 2018. The implementation was carried out by the **EJB company of Mr. Jacek Bereźnicki**, who has been producing lofts and other accessories necessary in pigeon breeding for years. Initially, 6 functional lofts were created, and in the 2020 season, 2 more lofts will be added. Great interest in participating in OLR Mazury does not exclude the possibility of new ones. The lofts are dry, healthy, well-equipped and are a great place for pigeons to compete.

PARTICIPANTS, COMPETITION, AWARDS

From the fourth season of 2021, we are a loft associated in the **FCI Grand Prix Ranking Mundiale**. The first three seasons enjoyed constantly growing interest. Apart from a large group of domestic participants, also a very strong group of foreign fanciers joined the competition at OLR Mazury every year. Almost a hundred foreign teams delight observers every year. It is impossible to list all the stars of our OLR, but the list is impressive, as evidenced by the archival start lists of OLR Mazury. The big magnet of the competition are prizes, the total **prize pool of 100,000 euros**, the main point of which is the prize of 100,000 PLN for the **first place - about 25,000 euro**. The highest of the awards at Polish joint lofts. We were the first in Poland to introduce a competition for female teams - **WOMEN CUP 2021**, where women who entered their pigeons at OLR Mazury compete for additional prizes. The last attraction are also **FCI points**, which can be earned by participants from the season 2021. We are a constantly developing loft that aims to provide as much satisfaction for its participants as possible.

TECHNICAL PREPARATION OF OLR MAZURY

OLR Mazury is equipped with an on-line preview. Participants and fans can observe the life of the pigeons on the loft using 2 cameras. The cameras are available all year round, they also provide monitoring. The system for recording pigeon results from 2021 is **Benzing**, which in our opinion can provide the most professional data transfer between our OLR and the participants who follow the results of their pigeons. That is why we decided to focus on the prestige and professionalism of the BENZING brand. The results will be presented on the Benzning One lot Race website.

FOREIGN COOPERATION

An important element of our activity is foreign cooperation. Our goal is to make the competition at OLR Mazury a European competition at the highest possible level. For this purpose, we have also established cooperation with many excellent agents who support us in contacts with foreign participants. Thanks to their work, the range of our activity is constantly increasing, which makes us the best Polish OLR in terms of the number and quality of an international cast. Every year, at least participants from 16 countries take part in the OLR Mazury competition.

AUCTION PIGEONS IN CHINA

In addition to the highest prizes on Polish OLR, reaching a total of EUR 100,000, we are also proud of the pigeon **auction on the Chinese market**, where Chinese breeders can purchase pigeons from our participants. It is a great honor and prestige for us, because we are the only company that can boast of such an initiative on the Chinese market. For the first time, an organized auction after the 2019 season was very successful. This year we are organizing an auction of the best pigeons from the 3rd Edition of OR Mazury 2020. We are counting on no less success.

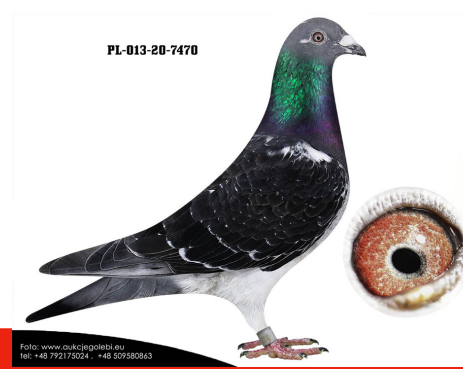

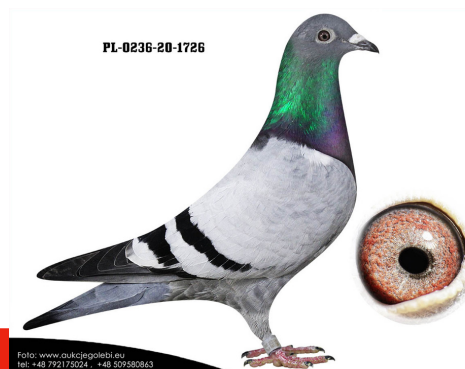

TRAINING AND FLIGHTS OF OLR MAZURY

Every year, at least 8 training flights (up to 70 km) and 4 competition flights at distances from 100 to 350 km are organized. The competition ends with the 5 final flight. Our goal is to make the last final flight a minimum distance of 500 km. This year's final in 2021 will be held from Słubice from a distance of 540 km. We think that such a distance will satisfy our participants.

We conduct trainings using our transport in the form of a transport cabin for a minimum of 2000 pieces. A new cabin specially prepared for our OLR. During the flights, the transport is the responsibility of the guardian (one of the organizers) and the driver who ensure the safety and release of the pigeons.

PIGEON CARE - FEED, SUPPLEMENTS, TRAINING, VETERINARY

The daily care of the herd is carried out by the organizers of OLR Mazury. Experienced long-time breeders of racing pigeons and additionally a man who monitors pigeons 24 hours a day.

The pigeons on our OLR Mazury are fed with fodder of the brands: **VerseLaga, Beyers, Best Natural, MDM**. The supplementation is mainly products of well-known companies **Herbots, Belgavet Seiffert and Belgica de Weerd**. To maintain health, we also use products of Polish brands: **Piomar** and **TJW**. Additionally, we use excellent pigeon pellets from TJW.

All pigeons participating in our competitions are vaccinated against Paramyxovirus and smallpox. Veterinary supervision is carried out by the office of **Dr. Bartosz Socik**, who lovingly takes care of young pigeons. During periodic visits to OLR Mazury, tests are carried out to detect diseases. Quick diagnosis, medical assistance and good supplementation mean that we can be proud of the excellent health condition of our herd.

We do not spare the health of the pigeons entrusted to us.

OLR MAZURY

Everything about our loft from A to Z

INTEGRATION WITH PARTICIPANTS

OLR Mazury also means integration with its participants. Every year, a picnic is organized, the aim of which is to present our OLR and the opportunity to meet our participants. This event is very popular. In addition, we organize a party with awards at the end of the season during the final flight. A very nice meeting, where, with good regional food, roasted piglet, the participants can pleasantly sum up the flying season at OLR Masuria. Each of these events makes our integration with the participants even greater.

AWARDS AND PLANS FOR THE FUTURE

OLR Mazury tries to be the most transparent loft possible. Our actions are characterized by truth and care for the pigeons entrusted to us. We do not save on their health, we do not save on food and supplements. We strive to ensure that the pigeons entrusted to us have optimal conditions for development and sports competition. We are a company that reliably pays awards to its participants without delay. A company that cares that our image is perceived in the best possible way. We are pleased to announce that our activities were reflected in the awards received by OLR Mazury. One of such distinctions is the certificate of the Institute of Consumer Research "Firma Godna Zaufania", which was the first in the industry to award us with such an honorable laurel. Our actions so far also made the FCI awarded us with the Grand Prix Mundiale 2021 Ranking. We are very happy about it. Such awards motivate us to continue hard work for the development of OLR Mazury and the services provided to you.

Our goal is to constantly develop. That our OLR attracts the strongest international cast to the start.

Your satisfaction is important. Your joy is also our joy.
